ABOUT ME

A dedicated Computer Engineering graduate with a strong focus on software development and hands-on technical application. I specialize in cross-platform mobile development using React Native and Flutter, backed by a solid foundation in C++, Python, and Java. I am a highly adaptable learner who thrives in practical, "hands-on" environments and is eager to contribute technical problem-solving skills to real-world engineering projects.

WORK EXPERIENCE

Student Assistant(SPES) - Department of Agrarian Reform Inventory System Developer **June 2025 - July 2025**

- Developed a centralized web application to digitize and track departmental equipment inventory
 - Built a "Softcopy Generation" feature for exporting real-time equipment lists, eliminating manual paperwork
 - Transitioned the department from physical record-keeping to a responsive digital platform, boosting data accessibility
-

PROJECTS

Thesis Lead App Designer & Developer

- Designed and engineered an automated, AI-powered Smart Bin system integrating computer vision, IoT edge computing, and real-time cloud data syncing
 - Trained a custom YOLO object detection model to classify waste into four distinct streams: paper, plastics, plastic bottles, and unrecyclable materials
 - Developed a cross-platform IoT mobile application with real-time fill-level monitoring and automated push notifications via Firebase Cloud Messaging (FCM)
 - Implemented Firebase Firestore/Realtime Database to track, aggregate, and visualize daily waste collection metrics and trends per material class
 - Programmed an Arduino microcontroller (via Arduino IDE) to orchestrate physical waste segregation mechanisms and manage a compression system for optimal bin capacity
-

EDUCATION

Marinduque State University

University of Engineering Excellence

Bachelor of Science in Computer Engineering | Aug 2022 - May 2026

- **Best Thesis Rank 2**
 - Thesis on "AI-powered Smart Bin System"
-

SKILLS

Technical Skills

Full-Stack Web Development, Cross-Platform Mobile App Development, Cloud Backend Integration (Firebase), Computer Vision & Machine Learning (YOLO), Real-Time Data Streaming, Robotics & Automation Logic

Tools & Frameworks

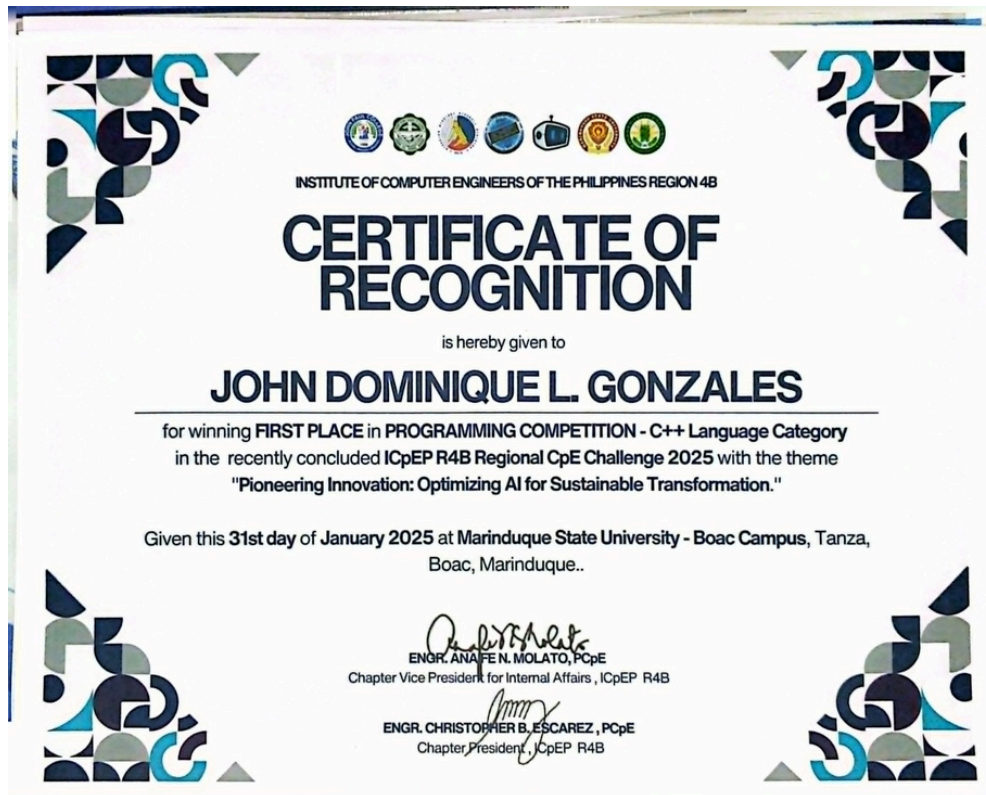

React Native, Next.js, Node.js, Arduino IDE, PyTorch, MongoDB, Git, MySQL, Claude Code

Programming Languages

C++, C, C#, Python, Java, Javascript, PHP, Flutter

ADDITIONAL INFORMATION

- **Regional C++ Programming Competition** - Champion 2025 & 2nd Place 2026
- **National C++ Programming Competition Participant** - 2025
- **Civil Service Professional Examination Passer**

CERTIFICATE
OF PARTICIPATION

is presented to

JOHN DOMINIQUE L. GONZALES

for being one of the contestants on Programming Competition - C++ during the ICPEP National CpE Challenge and Student Congress with the theme "BYTE 2025 : Building Young Tech Experts for a Smarter Future" on May 8-9, 2025.

Given this 9th day of May 2025 at National University Fairview, Quezon City.

Engr. Catherine M. Verallo, PCpE
VP for Education

Dr. Corazon B. Rebong, PCpE
Over-all Event Chairperson

Dr. Desiderio R. Apag III, D. Eng., PCpE
ICPEP National President

CERTIFICATE
OF APPRECIATION

THIS CERTIFICATE IS PROUDLY PRESENTED TO

Gonzales, John Dominique L.

In appreciation of your valuable participation in the seminar titled "**Fundamentals of Image Processing using MATLAB and OpenCV**". Your engagement and enthusiasm greatly contributed to the success of the event and the shared learning experience.

Given this 20th day of November, 2024, held at Marinduque State University Lounge, Tanza, Boac, Marinduque.

JEROME L. LAURENTE
Class President

ENGR. ANTONIO JEROLD R. LANTORIA
Subject Professor/ Program Head
